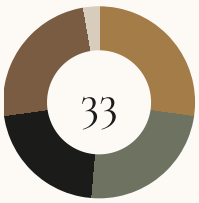
EXECUTIVE SUMMARY

# Platform *Overview*

A fully bespoke luxury real estate platform — hand-coded from the ground up with an integrated CRM, original media, and enterprise-grade search optimization. No templates. No third-party dependencies. No monthly platform fees. You own every line of code.

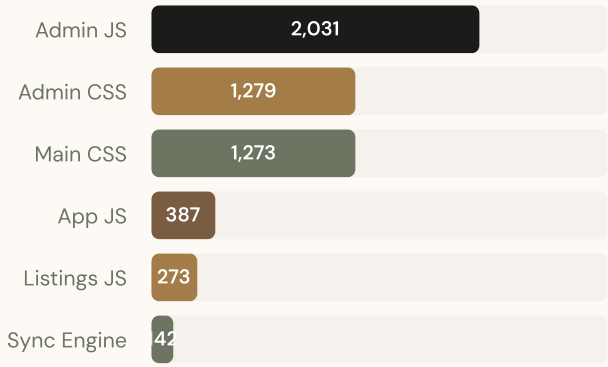
| 33 | 13,517 | 57 | $0 |
|---|---|---|---|
| TOTAL PAGES | LINES OF CODE | MEDIA ASSETS | MONTHLY FEES |

## PAGES BY CATEGORY



- Core Pages (9)
- Journal Articles (8)
- Property Pages (7)
- Admin Portal (8)
- Utility (1)

## CODEBASE BREAKDOWN



### WHY THIS MATTERS

Platforms like Luxury Presence, Sierra Interactive, and kvCORE charge **$500–$2,000 every month** — locking you into a system you'll never own. After 3 years, you've spent $18,000–$72,000 with nothing to show if you leave. This platform has **zero recurring fees, zero lock-in, and full code ownership**. The savings compound every single month.

PUBLIC WEBSITE

# 25 Pages of *Luxury* Content

Every page is custom-designed and hand-coded — no WordPress, no Squarespace, no templates. This is bespoke software engineering built specifically for one brand, one market, one vision.

## 9
### Core Marketing Pages

Homepage with cinematic hero video, animated stat counters, dynamically rendered featured properties, services tabs, and testimonials. Plus fully designed Buy, Sell, Properties (4-filter search), Communities (7 neighborhoods), About, Contact, Journal, and Private Consultation pages.

## 8
### Long-Form Journal Articles

2,000+ word SEO-optimized content covering market insights, neighborhood guides, investment analysis, architectural deep-dives, and buyer advisory — each with social sharing, sidebar navigation, and strategic inline calls-to-action.

## 7
### Property Showcase Pages

Full 3-image gallery layouts with property specs, narrative descriptions, and embedded inquiry forms. Each page is **live-synced to the CRM** — edits made in the admin portal instantly update the public listing without any page refresh or deployment.

## 15+
### GSAP Scroll Animations

Scroll-triggered reveals, parallax backgrounds, staggered card entries, clip-path curtain wipes, hero entrance sequences, animated stat counters, and a custom dual-element cursor system — all hardware-accelerated for buttery performance.

| TYPOGRAPHY | |
|---|---|
| Headlines | Cormorant Garamond (300–600) |
| Body / UI | DM Sans (300–500) |
| Approach | Luxury serif + precision sans-serif |

| COLOR PALETTE | |
|---|---|
| Bronze #A47C48 | Primary |
| Charcoal #1B1B1A | Dark |
| Sage #6E7462 | Secondary |
| Cream #F3EFE8 | Background |

### ORIGINAL MEDIA PRODUCTION

Includes a custom streaming music player with Web Audio API equalizer, shuffle, repeat, volume control, and draggable timeline — featuring **4 original songs** by **Rockstarr Media**. Plus a cinematic video player with fullscreen modal. Proprietary media not available on any template platform.

INTEGRATED CRM & AGENT PORTAL

# Enterprise-Grade *Management System*

Most agents pay separate monthly fees for a CRM, a website, and a marketing platform — and none of them talk to each other. This system unifies everything into one seamless experience with real-time synchronization across every touchpoint.

| 8 | 3,310 | 82+ | 5 |
|---|---|---|---|
| ADMIN PAGES | LINES OF CODE | FUNCTIONS | LIVE DASHBOARDS |

### Real-Time Dashboard

Live KPIs: active listings, portfolio value, lead pipeline, campaign performance. Chart.js activity graphs, recent inquiry tables, animated counters — an instant pulse on your business the moment you log in.

### Listings Manager with Live Sync

Full CRUD with drag-and-drop reorder, photo gallery (5 per listing), inline editing, filter chips. **Every change syncs instantly to the public site** via BroadcastChannel — no refresh, no deploy. It's live in milliseconds.

### Lead Pipeline & CRM

6-stage lead lifecycle: New → Contacted → Warm → Hot → Escrow → Closed. 11 source types, listing association, detail modals, email deeplinks, filter pills. The kind of pipeline standalone CRMs charge **$200–$500/month** for — built-in at no extra cost.

### Campaign Manager

4-step wizard: Email, Social, Direct Mail, Open House. Tracks sends, opens, clicks. Status lifecycle, duplication for rapid iteration. Every campaign links to the lead pipeline for full-funnel attribution.

### Analytics & Reporting

5 Chart.js dashboards: pipeline bar, source doughnut, intent pie, budget distribution, polar chart. Performance table, **CSV export**, and **styled PDF reports** for client presentations.

### Security & Architecture

SHA-256 hashing via Web Crypto API. Desktop-only enforcement, SessionStorage auth with auto-expiry. BroadcastChannel cross-tab sync. localStorage persistence — zero database costs.

### THE INTEGRATION ADVANTAGE

When your CRM, website, listings, and marketing tools are separate systems, you're paying for fragmentation. Leads fall through cracks, updates require manual duplication. This system eliminates all of that. **One change, everywhere, instantly.** That's a competitive advantage that compounds over time.

SEARCH ENGINE OPTIMIZATION

# Built to Be *Found*

Search visibility is not a switch you flip — it's infrastructure you build. This platform was architected from day one with the technical foundation that search engines reward: structured data, semantic markup, strategic keyword targeting, and authoritative content. The groundwork is in place for strong organic ranking performance within the first 90 days of indexing.

| ELEMENT | STATUS | DETAILS |
|---|---|---|
| Sitemap.xml | LIVE | 22 URLs with priority weighting and update frequency |
| Robots.txt | LIVE | Public pages crawlable, /admin/ blocked from indexing |
| JSON-LD Schema | LIVE | 7 types: RealEstateAgent, WebSite, FAQPage, Service, BreadcrumbList, Article, Org |
| Open Graph + Twitter | LIVE | All 25 pages with og:title, og:description, og:image, twitter:card |
| Canonical Links | LIVE | Every page with proper canonical URL preventing duplicate content |
| Meta + Keywords | LIVE | Keyword-optimized for luxury homes San Antonio, Hill Country, first-time buyer |
| Favicon + Social Image | LIVE | SVG + PNG (16/32/180px) + 1200x630 OG image for social sharing |

THE SEO FOUNDATION

Search engine optimization is a long-game investment. The technical foundation — structured data, semantic HTML, fast load times, mobile responsiveness — is what separates platforms that rank from platforms that don't. With 8 long-form articles indexed, 7 schema types signaling authority to Google, and keyword-optimized meta across every page, this site is positioned to begin appearing in search results for high-intent luxury queries as domain authority grows. **The infrastructure works 24/7 at no additional cost.**

8

### SEO Content Assets

Eight 2,000+ word articles targeting long-tail queries: market insights, neighborhood guides, investment analysis, and buyer advisory. Each is a permanent asset attracting organic traffic month after month.

7

### Schema Types Deployed

Google's Rich Results require structured data most real estate sites don't implement. This platform deploys 7 distinct JSON-LD types, giving search engines explicit signals about your business and authority.

ABOUT PROPELLEDIT LLC

# Precision *Craftsmanship*

PropellEdit LLC specializes in building custom digital platforms for discerning clients who demand more than what off-the-shelf solutions can deliver. Every project is treated as bespoke architecture — engineered to perform, designed to endure, and built to be fully owned by the client.

### No Templates. No Shortcuts.

Every line of code is written specifically for your brand. There is no shared codebase, no generic theme, and no plugin dependencies. The result is a platform that loads faster, ranks higher, and looks like nothing else in your market — because it isn't.

### Full Ownership, Always

You own every file, every image, every line of code. There are no licensing agreements, no monthly access fees, and no vendor lock-in. If you ever want to move, modify, or expand — the platform is entirely yours.

### Integrated by Design

Rather than stitching together 4–5 separate SaaS tools that don't communicate, PropellEdit builds unified systems where the CRM, the website, the listings, and the marketing tools all share the same data layer. This eliminates friction, reduces errors, and saves thousands annually.

### Ongoing Technical Support

Every platform comes with direct access to the development team for modifications, updates, and strategic guidance. No support tickets. No chatbots. No waiting 48 hours for a reply. Your developer knows your codebase because they wrote it.

## Technology Stack

- → Vanilla JavaScript (ES6+) — zero framework bloat
- → Custom CSS architecture — no Bootstrap or Tailwind
- → GSAP + ScrollTrigger for cinematic animations
- → Chart.js for interactive data visualization
- → Web Audio API for custom music player
- → Web Crypto API for SHA-256 authentication
- → BroadcastChannel API for real-time sync
- → FormSubmit.co for serverless form delivery

WHAT THIS MEANS FOR YOU

No server costs. No database fees. No WordPress updates that break your site at 2am. No plugin conflicts. No security patches you didn't ask for. Just a clean, fast, fully owned platform that works — **today, next year, and five years from now.**

MEDIA PRODUCTION PARTNER

Original music production by **Rockstarr Media** — 4 exclusive tracks composed and produced specifically for this brand identity. Professional audio mastered for web playback, integrated directly into the platform's custom streaming player. This is not stock music. This is your sound.

MARKET VALUATION

# Investment *Breakdown*

The following reflects current market rates for custom web development of this scope, complexity, and quality — based on established agency pricing across the luxury real estate vertical.

| COMPONENT | DESCRIPTION | VALUE |
|---|---|---|
| Discovery & Brand Strategy | Competitive analysis, information architecture, brand positioning | $5,000 – $10,000 |
| UI/UX Design | 33 pages, luxury aesthetic, custom cursor, animation choreography | $18,000 – $30,000 |
| Frontend Engineering | GSAP animations, responsive architecture, parallax systems | $15,000 – $25,000 |
| CRM & Admin Portal | 8 pages, full CRUD, 5 dashboards, auth, real-time sync, exports | $25,000 – $40,000 |
| Original Media Production | 4 original songs, streaming player, cinematic video system | $8,000 – $15,000 |
| Real-Time Sync Engine | BroadcastChannel, live property updates, photo gallery system | $4,000 – $8,000 |
| Content & Copywriting | 8 long-form articles (2,000+ words), SEO-optimized | $5,000 – $10,000 |
| SEO Infrastructure | 7 schema types, sitemap, keyword strategy, social cards | $3,000 – $6,000 |
| Forms & Integrations | Contact + consultation forms, email delivery, lead capture | $2,000 – $3,000 |
| QA, Deployment & Hosting | Cross-browser testing, mobile optimization, production deployment | $2,000 – $4,000 |
| Project Management | Coordination, revisions, client communication, documentation | $12,000 – $22,000 |

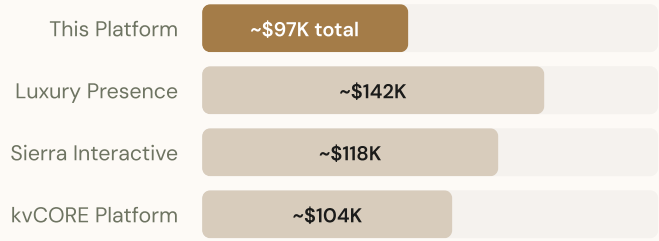
| | | |
|---|---|---|
| TEMPLATE-BASED PLATFORMS | $25,000 – $40,000 | WordPress or Squarespace with custom design layer |
| THIS PLATFORM DELIVERED | $80,000 – $115,000 | Custom-coded, integrated CRM, original media, zero recurring fees |
| ENTERPRISE PLATFORMS | $120,000 – $200,000+ | Luxury Presence, Agent Image, + $12K–$24K/yr ongoing fees |

TOTAL COST OF OWNERSHIP

# Long-Term *Value*

The real cost of a platform isn't what you pay upfront — it's what you pay over time. Monthly SaaS fees, per-lead charges, platform add-ons, and locked-in contracts quietly erode your margins year after year. This platform eliminates all of it.

### 3-YEAR COST COMPARISON



### ANNUAL FEE SAVINGS

**$12K–$24K**

SAVED PER YEAR

No monthly SaaS fees

No per-lead charges

No platform lock-in

Full code ownership

## Complete Asset Inventory

| DELIVERABLES | COUNT |
|---|---|
| Public Website Pages | 25 |
| Admin Portal Pages | 8 |
| Custom CSS | 2,740 lines |
| Custom JavaScript | 2,846 lines |
| Journal Articles | 8 |
| Property Showcase Pages | 7 |
| Original Songs Produced | 4 |
| Total Media Assets | 57 |

| TECHNICAL FEATURES | DETAIL |
|---|---|
| GSAP Animations | 15+ |
| Chart.js Dashboards | 5 |
| JSON-LD Schema Types | 7 |
| Admin CRUD Systems | 3 |
| Custom Music Player | Web Audio API |
| Real-Time Sync Channels | 2 |
| Export Formats | CSV + PDF |
| Responsive Breakpoints | 4 |

## Estimated Platform Value: $80,000 – $115,000

A fully custom luxury real estate platform with integrated CRM, original media by Rockstarr Media, enterprise SEO, real-time synchronization, and complete code ownership — with zero recurring fees.

*"You're not paying for a website. You're investing in infrastructure that works for your business every single day — without a monthly invoice."*
